OBJECTIVE

Dynamic and results-oriented MCA graduate with strong skills in software development, data structures, and machine learning. Experienced in building innovative solutions through academic projects and internships. Eager to contribute to impactful technology-driven initiatives in a growth-focused environment.

EDUCATION

Year	Degree	Institute
2023-25	MCA	Graphic Era Hill University, Dehradun
2020-23	B.sc (Hons-CS)	Graphic Era Deemed to be University, Dehradun

PROJECTS

Plant Leaf Disease Detection using image processing

- Built a disease detection model using OpenCV for image preprocessing and TensorFlow for CNN-based classification.
- Enabled early diagnosis of plant diseases, achieving high classification accuracy.

Old Age Home Management System

- Created an e-commerce website to manage residents, staff, and daily operations of an old age home.
- Included features like registration, task scheduling, and communication, using PHP and MySQL.
- Focused on streamlining administrative tasks and improving workflow efficiency.

Notes Application

- Developed a notes app in Android Studio using Java, allows users to create, edit, and delete notes.
- Implemented a simple and intuitive UI, with data storage using SQLite for note persistence.
- Focused on seamless user experience and functionality for quick note management.

TECHNICAL SKILLS

- **Programming Languages:** C, Java, C++, Python, C#
- **Web Technologies:** HTML, CSS, JavaScript, PHP, ReactJS
- **Database Systems:** MySQL, SQL Server, MongoDB
- **Core Concepts:** DBMS, Data Structures, operating System, OOPS
- **Mobile Development:** Android Development (Java, XML)
- **Operating Systems:** Windows, Linux

INTERNSHIP

Web Development Intern

Oasis Infobyte | Duration: 1 Month

- Completed a 1-month internship focused on front-end and back-end web development.
- Designed and developed responsive web interfaces using HTML, CSS, and JavaScript.
- Strengthened practical skills in modern web technologies through project-based learning. Conducted testing and debugging, enhancing user experience and optimizing performance.

AI Salesforce Intern

Rialtes | October 2024 – December 2024

- Completed structured training modules focused on Salesforce CRM and AI integration.
- Gained hands-on experience in Salesforce automation and AI-powered solutions.
- Developed a solid understanding of CRM workflows and practical AI applications

Certifications & Online Courses

- Certified AI Salesforce Associate
- Certified AI specialist from salesforce
- Introduction to Web Development – Coursera
- Introduction to Core Java – Solo Learn

Awards and Honors

- Academic Excellence Scholarship for outstanding performance in undergraduate studies.
